

# A+ Abacus Center

1025 S. De Anza Blvd., Ste. 4,  
San Jose, CA 95129

[www.aplusabacus.com](http://www.aplusabacus.com)

December 13, 2017

- A. There will be no classes between the dates of 12/19-1/1/2018 for Christmas and New year. The class will resume on 1/2/2018.

- B. The Orion Abacus Association is proud to be participating as a part of Google's philanthropy organization. As a registered nonprofit organization whose overall goal is to promote the education and culture of abacus and mental arithmetic throughout the nation. The OAAA continuously intends to nurture the growth of the next generation with skills and disciplines learned from studying abacus and mental arithmetic so that they may continue to pass down the tradition and culture. We also hope that the skills acquired by students learning abacus will help them prosper in school and any other activities beyond the scope of school. **If you are a Google employee**, please consider donating to the Orion Abacus Association **by 12/15**.

All Google employees are given a **\$400** holiday donation credit to the organization of their choice. If you or someone you know at Google would be interested in donating to our cause, please follow Google's instruction to do so. Thank you so much!

- C. This year, the Orion Abacus Youth Organization (OAYO) is participating in a charity event. In this event, **we will be asking people to donate unused eyeglasses and recycling them for a greater cause**. If you have any unused eyeglasses, please bring them to the classroom as soon as possible. The Youth Organization will collect all eyeglasses. Please look around your house and ask all your friends!

Please find attached the flyer for more information.
